# IMPORTANT

## *Please Read Carefully*

The Greening Nursery Company operates with the best of man-made facilities, but because of the limitations prescribed by nature—

Prices here listed are subject to change without notice.

Prices are for good delivered and cash on delivery.

We recognize no agreement not written into original orders sent us nor do we waive any part of the contract printed on our order blank.

We cannot accept orders calling for shipment on any specified date, for the seasonable nature of our business prevents this.

Owing to the cost of handling small orders and the drastic price reductions in this list we are compelled not to accept orders amounting to less than \$3.00 excepting at an increase of 20 per cent, as a service charge.

We will furnish for replacement without charge, any tree, plant or root, EXCEPTING EVERGREENS, RASPBERRY TIP and SUCKER PLANTS and BLACKBERRY ROOT CUTTINGS purchased from us, that may be lost from any fault of condition upon receipt, providing we are notified before October 1st following delivery.

We solicit your orders on our record of eighty-two years of fair dealing and on the assurance of the treatment that we would expect were our positions reversed.

Sincerely,

THE GREENING NURSERY COMPANY

Monroe, Michigan

## *A Message of Importance*

### To our customers and friends about **GREENING NURSERY PRODUCTS**

*As to integrity -- an old Persian Proverb says:*

*"My son, the priceless ingredient of every product in the market is the honorable integrity of him who makes it--that quality stands for true worth. Consider well his name before you buy,"*

No line of human endeavor carries more of a trust of honor than does the nursery business—and knowing that trust—for eighty-two years—Greening's Nurseries have been mixing into their products "that priceless ingredient." We have labored unceasingly to make the name Greening mean much in its application to Nursery Products.

By close intimacy with the simple laws that govern an honest effort to serve as we would be served, we constantly strive to merit the continued patronage of our friends and customers.

Eighty-two years is a long time in the span of American business life, and it is unusual for the ideals and pioneer sincerity of purpose to have been carried on for more than three quarters of a century, by one family.

### *Born in 1850 -- Still Growing*

is a slogan that is more than a "battle-cry" of business. It is a goal of attainment that involves constantly setting the stake ahead.

### *Greening Research*

Ever alert to the trust reposed in us, Greening research is conducted by experts—under a merciless system of observation—record—and selection.

It is our unwavering practice to eliminate that which may prove below the exacting standards that we have fixed for Greening Merchandise.

To the vast field of new varieties and so-called novelties, we hold a tolerant but critical attitude. All are given fair trial, but it is the invariable Greening practice to hold fast only to those that have outstanding merit.

You may purchase Greening Nursery products with the full confidence that Greenings have long ago instituted knowledge for uncertainty, and that Greening Nursery Products are the result of years of knowing definitely what to do, and consistently doing it.

We urge the earnest consideration of our friends, of the experience and record of our eighty-two years of service.

Sincerely,

**THE GREENING NURSERY COMPANY**

Monroe, Mich.

### PEACHES

#### THE NEW HALEHAVEN PEACH

Produced through the efforts of the Michigan State Experiment Station, South Haven, Michigan, (Mr. Stanley Johnson' Supt.) The Halehaven, a cross between the famous varieties J. H. Hale and South Haven, is a large, beautifully colored yellow fleshed peach, ripening approximately two weeks before Elberta. A perfect freestone, strong thrifty grower, splendid shipper and an extremely hardy, heavy bearer of exceptionally fine flavor.

## Greening's Own Growing Carefully Graded

### *Greening's Double Guarantee*

In the conduct of a business that is so entirely one of confidence, as is the nursery business, the inherent honesty and moral responsibility of the grower and seller counts for infinitely more than the insurance of the commodity in trade.

The buyer of a tree or plant is not buying a finished product but the means (after years of waiting) whereby his efforts may succeed or fail.

From the beginning a practice of fair dealing has been maintained and now after eighty-two years, we are proud of the record of growth that is the reward of right service.

Greening Nursery Products are sold under a double guarantee that safeguards the interests of our customers.

**First—We unqualifiedly guarantee all stock to be true to name.**

**Second—We guarantee all stock to have been properly packed and also safe delivery to you.**

If for reasons beyond our control such as delay in transportation, etc., stock should be received in an unsatisfactory condition, or if through error any stock should prove untrue, The Greening Nursery Company will, without condition, furnish stock for replacement, without charge.

There are of course conditions of planting and weather that may affect the future of all plantings. Over these conditions we have no control, consequently

The Greening Nursery Company assumes no responsibility other than the unusual conditions set forth in our double Guarantee.

**The GREENING NURSERY COMPANY**  
**MONROE, MICHIGAN**

**Greening's Trees Grow**

# Greening's Trade-Mark

## *Designed to* **PROTECT YOU**

As the Ancient Alchemist used the bulls eye (or circle with a dot) as a symbol to indicate pure gold, the trade mark of The Greening Nursery Company is a pictorial symbol, with a message, that carries an importance, measured by security, for the buyer of Nuresry Products.

Sterling on Silver—Wedgewood on Pottery, Karpon on Furniture, all have a significance, that dispels doubt in the mind of the purchaser and so with the Greening Trade Mark—Trees You Can Trust—there is the assurance that comes from a record of Eighty-two years of keeping the faith.

The wondrous alchemy of nature assisted by the constructive intelligent work of the experienced Greening grower, has unfolded the embryo of seed or developed the bud or scion into a merchantable tree or shrub, but that in itself is of little importance to mankind, unless careful methods have perpetuated or evolved some meritorious fruit or flower.

As a symbol of careful, persistent methods— as a mark of inherent good qualities—as a decoration for real attainment—the Greening Trade Mark is in truth the seal that is the distinguishing labed for

### **TREES YOU CAN TRUST**

To avoid uncertainty as to parentage—to insure all that intensive and extensive research and advanced science has proved of value—to both the amateur and commercial grower, look carefully for—and insist on having—that distinguishing Greening Trade Mark for it is—

### **THE SEAL OF QUALITY**
